

Cedar & Vine Bistro

Independent 72-seat neighborhood restaurant with beer and wine service, dine-in and takeout, and nine years of operating history.

The account shows stable operations and no recent claims, but still has ordinary underwriting gaps around sprinkler protection, documentation completeness, and control maturity.

BUSINESS
Cedar & Vine Bistro

Independent 72-seat neighborhood restaurant with beer and wine service, dine-in and takeout, and nine years of operating history.

FINAL SCORE
65/110

C

Likely E&S placement; clear improvement path identified.

bonus

STRENGTHS
Stable operating history with no verified claims in five completed policy years.

Core licenses and occupancy records are current.

Commercial cooking is protected by a serviced hood suppression system.

MAIN GAPS
No full-building sprinkler system.

Partial loss runs, COIs, and maintenance records.

Basic but not fully mature alarm, cyber, and continuity controls.

Scored Factors

30 rows

PILLAR	FACTOR	SCORE	MATCHED RULE	EVIDENCE	UNDERWRITING NOTES
PROPERTY & PHYSICAL RISK		30 core points			
Property & Physical Risk 30 pts	Building construction type	3/5	Verified joisted masonry or mixed masonry and combustible construction.	Property card and walkthrough photos	Older joisted-masonry storefront with combustible roof framing.
	Roof age and condition	2/4	Roof is 10 to 20 years old, or newer than 10 years old without a recent condition report.	Landlord invoice and walkthrough notes	Roof is about 12 years old with no recent third-party condition report.
	Sprinkler system	0/5	No sprinkler system is present.	Interior walkthrough	No full-building sprinkler coverage.
	Fire and smoke alarm system	2/4	Local audible alarm system is installed but not centrally monitored.	Alarm panel and smoke detector photos	Local alarm present, but no proof of central monitoring.
	Burglar alarm and intrusion security	1/3	Local alarm or unmonitored intrusion system is present.	Door keypad photo and owner attestation	Basic intrusion alarm without monitoring documentation.
	Distance to nearest fire hydrant	3/3	Nearest fire hydrant is less than 500 feet away.	Municipal GIS map	Hydrant is roughly 280 feet away.
	Distance to nearest fire station	2/3	Nearest fire station is 1 to 3 miles away.	Municipal GIS map	Nearest fire station is about 1.8 miles away.
	Flood and wildfire zone exposure	3/3	Property is outside both a FEMA special flood hazard area and a state-designated high or very-high wildfire hazard zone.	FEMA and state hazard lookups	Outside high-risk flood and wildfire designations.

OPERATIONAL RISK				25 core points	
Operational Risk 25 pts	Business hazard class	2/6	Verified high-hazard occupancy such as full-service restaurant, bar, auto service, contractor yard, light manufacturing, or comparable operations with elevated loss potential.	NAICS classification and operations summary	Full-service restaurant with commercial cooking is a higher-hazard occupancy.
Operational Risk 25 pts	Years in operation	4/4	Business has operated continuously for more than 5 years.	License history and Secretary of State record	Continuous operation for nine years.
Operational Risk 25 pts	Prior claims history	5/5	Verified zero claims in the last 5 completed policy years.	Broker loss-run summary	No verified claims in the last five completed policy years.
Operational Risk 25 pts	Hours of operation	2/3	Business closes after 8:00 PM but not later than 11:00 PM local time.	Public hours and POS schedule	Closes around 10:00 PM.
Operational Risk 25 pts	Liquor service exposure	1/2	Only beer and wine are sold or served on premises.	Beer and wine license	Moderate alcohol exposure, but not full liquor service.
Operational Risk 25 pts	Commercial cooking exposure and suppression	1/2	Hazardous commercial cooking occurs and a compliant hood suppression system with current service documentation is in place.	Suppression tag and hood cleaning invoice	Grease-producing cooking exists and suppression service is current.
Operational Risk 25 pts	Cash on premises and deposit controls	2/3	Typical overnight cash on premises is 500 to 2000 dollars and a locked safe is used.	Cash-drop SOP and safe photo	Overnight cash usually falls between 500 and 1,500 dollars with a safe in use.
DOCUMENTATION READINESS				25 core points	
Documentation Readiness 25 pts	Current lease or deed	3/3	Current lease or deed is uploaded and the term is active as of the scoring date.	Signed lease PDF	Lease is active and fully executed.
Documentation Readiness 25 pts	Certificate of occupancy	3/3	Valid certificate of occupancy or equivalent municipal occupancy approval is provided.	Municipal occupancy certificate	Occupancy approval is valid for restaurant use.
Documentation Readiness 25 pts	Active business license	3/3	Active business license is current through the scoring date.	Current city business license	License is current through the present term.
Documentation Readiness 25 pts	Prior loss runs	2/4	Partial loss runs are provided but at least one year or one carrier is missing.	Current carrier loss runs and broker email	Most records are available, but one older carrier period is still missing.
Documentation Readiness 25 pts	Financial statements or tax returns	2/3	One full year of financial statements or tax returns is provided.	Latest P&L and one tax return	One full year is organized; the second year is not packaged yet.
Documentation Readiness 25 pts	Written safety and emergency procedures	1/3	Informal or outdated procedures are provided but are not clearly current or location-specific.	Staff handbook excerpt	Basic procedures exist, but they are informal and not fully location-specific.
Documentation Readiness 25 pts	Vendor certificates of insurance	1/3	COIs are on file for some, but not all, major vendors and contractors.	Vendor insurance folder	Some recurring vendors have COIs on file, but coverage is incomplete.

Documentation Readiness 25 pts	Equipment and building maintenance logs	1/3	Partial maintenance records exist but at least one major system has no current evidence.	HVAC, refrigeration, and suppression invoices	Partial service history exists without a complete log.
MITIGATION & CONTROLS					20 core points
Mitigation & Controls 20 pts	Security cameras	2/4	1 to 3 cameras are present or camera coverage is incomplete.	Camera stills and cloud DVR screenshot	Limited camera coverage at entry and register, but not comprehensive.
Mitigation & Controls 20 pts	Employee safety training	2/3	Training is documented but older than 12 months or not all current staff are covered.	Training sign-in sheet	Training is documented, but not all current staff are covered recently.
Mitigation & Controls 20 pts	Cybersecurity basics for payment or customer data	1/3	Basic cyber controls exist but either PCI evidence or MFA evidence is missing.	POS PCI attestation and admin login screenshot	Some cyber controls exist, but MFA evidence is incomplete.
Mitigation & Controls 20 pts	Workers' compensation class-code accuracy	3/3	Workers' comp class codes align with actual operations and payroll segmentation.	Workers comp policy and payroll summary	Payroll classes appear aligned to actual front- and back-of-house work.
Mitigation & Controls 20 pts	Exterior signage and lighting	3/3	Exterior entry points and customer approach paths are clearly lit and primary business signage is legible.	Day and night storefront photos	Customer approach is well lit and signage is clear.
Mitigation & Controls 20 pts	Posted emergency contact list	2/2	Emergency contact list is visibly posted and includes current internal and emergency contacts.	Posted contact list photo	Emergency contacts are visibly posted and current.
Mitigation & Controls 20 pts	Annual property inspection	1/2	Property inspection is 12 to 24 months old.	Landlord walkthrough checklist	Latest documented inspection is about 18 months old.

Bonus Paths

4 rows

PILLAR	BONUS	OUTCOME	NOTES
Property & Physical Risk	Recent third-party property condition survey	+0	No recent third-party condition survey is on file.
Operational Risk	Written opening, closing, and cash-drop procedures	+2	Opening, closing, and cash-drop procedures are documented.
Documentation Readiness	Complete document package	+0	Several documentation items are still partial rather than complete.
Mitigation & Controls	Business continuity and incident response plan	+0	No current written continuity or incident response plan is provided.
