

Insurance Readiness Scoring Framework

Version 1.0.0 - draft

Core score is out of 100 points. Bonus opportunities can add up to 10 points and count toward the final grade band.

Grade Bands

A 85-100 Strong submission profile; eligible for preferred markets.	B 70-84 Standard market eligible; minor improvements suggested.	C 55-69 Likely E&S placement; clear improvement path identified.	D 40-54 Significant gaps; top remediation items should be addressed first.	F 0-39 Foundational gaps; not submission-ready for most standard markets.	Core plus awarded bonus points

Factor Rubric

30 factors

FACTOR		SCORE OPTIONS
PROPERTY & PHYSICAL RISK		30 core points
Building construction type	5	Verified fire-resistive or non-combustible construction.
	4	Verified masonry non-combustible construction.
	3	Verified joisted masonry or mixed masonry and combustible construction.
	1	Verified frame or other primarily combustible construction.
	0	Construction type is unknown, unverified, or materially conflicts across sources.
Roof age and condition	4	Roof is less than 10 years old and no active deficiencies are noted in a report dated within the last 24 months.
	2	Roof is 10 to 20 years old, or newer than 10 years old without a recent condition report.
	1	Roof is more than 20 years old but a report dated within the last 12 months states no active leak or failure condition.
	0	Roof age is unknown, roof is more than 20 years old without a recent clean report, or any active leak or failure is documented.
Sprinkler system	5	Full-building sprinkler coverage is installed, operational, and backed by a current inspection certificate.
	3	Partial sprinkler coverage is installed and operational, or full coverage exists without current inspection proof.
	1	Sprinklers exist but status, coverage, or operability cannot be fully verified.
	0	No sprinkler system is present.
Fire and smoke alarm system	4	Centrally monitored fire alarm system is installed and current monitoring evidence is provided.
	2	Local audible alarm system is installed but not centrally monitored.
	1	Alarm equipment is visible but monitoring or operability cannot be verified.
	0	No fire or smoke alarm system is present.
Burglar alarm and intrusion security	3	Monitored intrusion alarm is active and evidence of monitoring is current.
	1	Local alarm or unmonitored intrusion system is present.
	0	No intrusion alarm exists, or evidence is insufficient to confirm any active system.
Distance to nearest fire hydrant	3	Nearest fire hydrant is less than 500 feet away.
	2	Nearest fire hydrant is 500 to 1000 feet away.
	0	Nearest fire hydrant is more than 1000 feet away, or no reliable hydrant location is available.
Distance to nearest fire station	3	Nearest fire station is less than 1 mile away.
	2	Nearest fire station is 1 to 3 miles away.
	1	Nearest fire station is more than 3 miles away.
	0	No reliable fire station location is available.
Flood and wildfire zone exposure	3	Property is outside both a FEMA special flood hazard area and a state-designated high or very-high wildfire hazard zone.
	1	Property is inside at least one high-risk zone but all required mitigation for that zone is documented and current.
	0	Property is inside a high-risk zone without documented mitigation, or zone status cannot be verified.

OPERATIONAL RISK			25 core points
Business hazard class	6	Verified low-hazard occupancy such as office, professional services, apparel retail, bookstore, or comparable operations with no hazardous processing.	
	4	Verified medium-hazard occupancy such as grocery, salon, fitness studio, cafe without deep frying, or comparable operations with limited hazard sources.	
	2	Verified high-hazard occupancy such as full-service restaurant, bar, auto service, contractor yard, light manufacturing, or comparable operations with elevated loss potential.	
	0	Hazard class cannot be verified or the operation is materially misclassified.	
Years in operation	4	Business has operated continuously for more than 5 years.	
	3	Business has operated continuously for 2 to 5 years.	
	1	Business has operated continuously for less than 2 years.	
	0	Operating history cannot be verified.	
Prior claims history	5	Verified zero claims in the last 5 completed policy years.	
	3	Verified exactly 1 claim in the last 5 completed policy years.	
	1	Verified 2 or more claims in the last 5 completed policy years.	
	0	Loss runs are missing, incomplete, or cannot be verified for the full 5-year period.	
Hours of operation	3	Business closes by 8:00 PM local time on all operating days.	
	2	Business closes after 8:00 PM but not later than 11:00 PM local time.	
	1	Business operates past 11:00 PM local time.	
	0	Operating hours cannot be verified.	
Liquor service exposure	2	No alcohol is sold or served on premises.	
	1	Only beer and wine are sold or served on premises.	
	0	Full liquor service is offered, or alcohol exposure cannot be verified.	
Commercial cooking exposure and suppression	2	No grease-laden vapor, deep frying, wok, charbroiling, or open-flame commercial cooking occurs on site.	
	1	Hazardous commercial cooking occurs and a compliant hood suppression system with current service documentation is in place.	
	0	Hazardous commercial cooking occurs without current suppression proof, or cooking exposure cannot be verified.	
Cash on premises and deposit controls	3	Typical overnight cash on premises is less than 500 dollars.	
	2	Typical overnight cash on premises is 500 to 2000 dollars and a locked safe is used.	
	0	Typical overnight cash on premises exceeds 2000 dollars, or cash procedures cannot be verified.	
DOCUMENTATION READINESS			25 core points
Current lease or deed	3	Current lease or deed is uploaded and the term is active as of the scoring date.	
	1	Lease or deed is uploaded but expired, unsigned, or missing key pages.	
	0	No lease or deed is provided and no public ownership record resolves the occupancy question.	
Certificate of occupancy	3	Valid certificate of occupancy or equivalent municipal occupancy approval is provided.	
	0	No valid occupancy approval is provided or verifiable.	
Active business license	3	Active business license is current through the scoring date.	
	1	License is provided but expired.	
	0	No business license is provided or the license cannot be verified.	
Prior loss runs	4	Complete 5-year loss runs are provided with all carriers represented.	
	2	Partial loss runs are provided but at least one year or one carrier is missing.	
	0	No loss runs are provided.	
Financial statements or tax returns	3	Two full years of financial statements or tax returns are provided.	
	2	One full year of financial statements or tax returns is provided.	
	0	No current financial statements or tax returns are provided.	

Written safety and emergency procedures	3	Written safety or emergency procedures are uploaded and clearly apply to the current location and operations.
	1	Informal or outdated procedures are provided but are not clearly current or location-specific.
	0	No written procedures are provided.
Vendor certificates of insurance	3	Current COIs are on file for all major vendors and contractors with ongoing site access or service obligations.
	1	COIs are on file for some, but not all, major vendors and contractors.
	0	No COIs are on file or vendor scope cannot be reconciled.
Equipment and building maintenance logs	3	Maintenance logs or service records are complete for major building systems and insured equipment.
	1	Partial maintenance records exist but at least one major system has no current evidence.
	0	No maintenance records are provided.

MITIGATION & CONTROLS			20 core points
Security cameras	4	At least 4 cameras cover entrances, exits, and cash-handling areas and footage is retained in a retrievable system.	
	2	1 to 3 cameras are present or camera coverage is incomplete.	
	0	No cameras are present or no reliable evidence is provided.	
Employee safety training	3	Annual safety training is documented for current staff within the last 12 months.	
	2	Training is documented but older than 12 months or not all current staff are covered.	
	0	No safety training evidence is provided.	
Cybersecurity basics for payment or customer data	3	PCI obligations are current if applicable and MFA is enabled on core payment or admin systems.	
	1	Basic cyber controls exist but either PCI evidence or MFA evidence is missing.	
	0	No cyber control evidence is provided for a business that stores, transmits, or processes payment or customer data.	
Workers' compensation class-code accuracy	3	Workers' comp class codes align with actual operations and payroll segmentation.	
	0	Class codes are missing, inaccurate, or cannot be verified against operations.	
Exterior signage and lighting	3	Exterior entry points and customer approach paths are clearly lit and primary business signage is legible.	
	1	Lighting or signage is present but coverage is incomplete or visibly weak.	
	0	Exterior lighting is inadequate, signage is absent, or evidence is not provided.	
Posted emergency contact list	2	Emergency contact list is visibly posted and includes current internal and emergency contacts.	
	0	No posted emergency contact list is visible.	
Annual property inspection	2	Property inspection is completed within the last 12 months.	
	1	Property inspection is 12 to 24 months old.	
	0	No inspection is provided or the latest inspection is older than 24 months.	

Bonus Paths

4 paths

PILLAR	BONUS	POINTS	WHAT COUNTS
Property & Physical Risk	Recent third-party property condition survey	+2	Third-party inspection or property condition survey dated within the last 6 months with no open critical deficiencies.
Operational Risk	Written opening, closing, and cash-drop procedures	+2	Current written procedure covering opening duties, closing duties, deposit cadence, dual-control expectations if used, and after-hours cash storage.
Documentation Readiness	Complete document package	+3	Every documentation factor in this pillar receives full points at the same time.
Mitigation & Controls	Business continuity and incident response plan	+3	Current written plan covering emergency shutdown, key contacts, vendor fallback, data recovery, and reopening steps.
